American Recovery Plan (ARP)

We are committed to supporting student success. In these unusual and unprecedented times, we recognize that students may face unexpected challenges in reaching their education goals and require short-term financial support to achieve success. Through the American Recovery Plan, Chesapeake College is authorized to award Higher Education Emergency Fund (HEERF) III grants to students.

The Department of Education’s Seven Required Reporting Elements

- 1 .Chesapeake College signed and returned the Certification and Agreement to the Department.
- 2. Chesapeake College has received \$1,901,887 to issue Emergency Grants to Students. We intend to use the total funding available to offer Emergency Grants to students.

3 and 5. Total Funds distributed to students and the total students awarded

4 and 6. Identifying students, determining amounts, and notifications

Chesapeake College identifies recipients who are potentially eligible. We estimate 775 potentially eligible students.

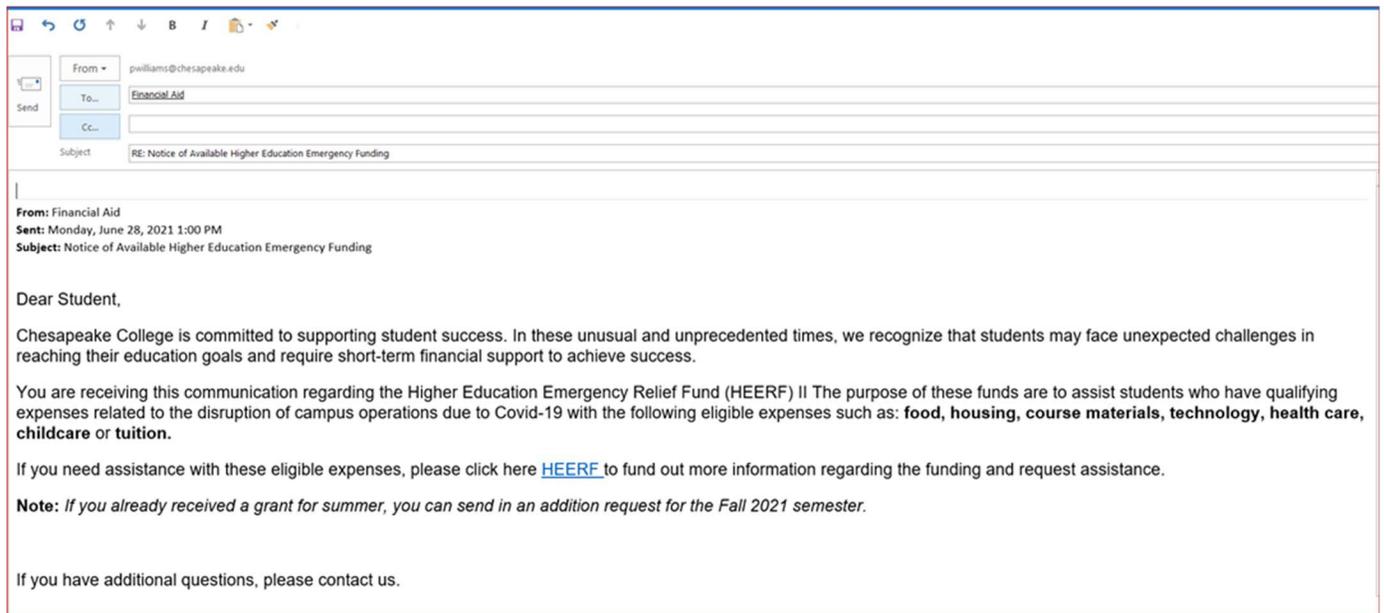

We perform direct outreach to our students informing them of funding availability. We have a direct webpage to inform students that these resources are available. Students can also request funding from this page as well.

Institutional leadership has determined that funding will be available for degree seeking students, continuing education, students, and dual enrollment students. We determine the maximum awards by evaluating the amount of funding available and the total number of our unduplicated Pell Recipients. For tuition payments, students receive up to 50% of the amount of their total bill. When appropriate, we make professional judgment decisions and evaluate amounts received on a case by case basis.

7. Instructions, directions, and guidance provided to students

Enrolled students are sent this communication:

Grant Distribution to Students
