Glossary

Clinical: Hands-on aspect of a course in a lab or simulated environment

Cohort: A group of students in a program together, who proceed through their coursework in the same sequence and time frame

EOM: Every-other month

Hybrid: Coursework is done in both a face-to-face environment and online

Internship: Hands-on experience in a real world setting

Self-paced: Courses are delivered online in an asynchronous format; students can access classes anytime on their own
